

TECHNICAL DATA REPORT

HS 0200

NEUTRA CLEAN pH Neutral Cleaner for Waxed Floors

DESCRIPTION:

Neutral green liquid to clean floors or waxed surfaces.

PURPOSE:

To clean waxed areas or cement, painted surfaces, wood, parquetry, urethane or marble without attacking or marking these surfaces.

HOW TO USE:

- 1) NEUTRA CLEAN gives improved cleaning power with biodegradable detergents and neutral builders for better wetting and faster, complete dirt removal.
- 2) NEUTRA CLEAN dissolves dirt, lifts it up and out for perfect easy cleaning. Leaves no film residue.
- 3) NEUTRA CLEAN cleans resilient tiles, concrete, ceramic tiles, painted surfaces, sealed wood and hardwood flooring with conventional cleaning or with spray cleaning equipment.
- 4) Add 12.5 ml. of NEUTRA CLEAN to 1 litre of warm or cold water for all cleaning chores. For best results, rinse with clear water after.

PRINCIPAL USERS:

Wherever floors are cleaned - institutions, buildings, hotels, motels, restaurants, apartments and office buildings.

ADVANTAGES:

- 1) Economical - use only 12.5 ml. per litre of water.
- 2) Neutral - does not attack the hands, clothing or paint.
- 3) Penetrates surfaces to lift and suspend soil.
- 4) Does not removes wax, urethane, varathane or similar surfaces during normal cleaning.
- 5) Does not attack marble.
- 6) Easy to apply.
- 7) Easy to rinse.
- 8) Biodegradable.

PRECAUTIONS:

Do not get in eyes. Read Material Safety Data Sheet.
