## SANIFECT Germicidal Bowl and Urinal Cleaner

### DESCRIPTION:

Concentrated heavy-duty germicidal porcelain bowl and urinal cleaner, deodorant and disinfectant.

### PURPOSE:

To clean, deodorize and disinfect toilet bowls, urinals and bathroom sinks, ceramic wall and floor tiles.

### HOW TO USE:

TO CLEAN AND DISINFECT TOILET BOWLS AND URINALS: Squirt a light stream over the inside of the bowl or urinal. Note how it clings to the surfaces. Spread around the bowl and under the rim with a bowl mop. Use same process for sinks, bathtubs, ceramic floors and wall tiles. Allow to act for at least a few minutes. Flush clean. Rinse mop.

### PRINCIPAL USERS:

Institutions, hospitals, schools, office buildings, hotels, motels, restaurants, theatres.

### ADVANTAGES:

- 1) Attacks lime and scale rapidly, removing rust, copper and iron stains.
- 2) Dissolves germ breeding films of organic matter without damage to vitreous ware.
- 3) Harmless to pipes and plumbing.
- 4) Does not hurt the hands or clothes.
- 5) Penetrates, loosens and removes stubborn soil and dirt.
- 6) Renews the true whiteness of bowls and urinals.
- 7) Quickly kills disease and odour causing bacteria.
- 8) Aids in health protection by maintaining high sanitation standards.
- 9) Will not affect septic tanks.
- 10) Cleans grouting between ceramic tiles.
- 11) Biodegradable.

### PRECAUTIONS:

EXTERNAL: If splashed in eyes or on skin flush thoroughly with water for 15 minutes, then cover with moistened sodium bicarbonate. **GET MEDICAL ATTENTION IMMEDIATELY.** If splashed on clothing remove and wash them immediately.

INTERNAL: If swallowed, give solution of milk and sodium bicarbonate, milk of magnesia or egg whites beaten with water or three to four glasses of milk. **DO NOT INDUCE VOMITING. GET MEDICAL ATTENTION IMMEDIATELY.**

Read Material Safety Data Sheet.
