

TECHNICAL DATA REPORT

HS 1301

SCREEN CLEAN Computer and Video Screen Cleaner

DESCRIPTION:

SCREEN CLEAN is a non-flammable, anti-static, quick drying cleaner that leaves an invisible protective coating on computer and TV screens.

PURPOSE:

SCREEN CLEAN is used to clean and protect computer display terminals, television screens, electronic game screens, radar screens, instrument and chart covers, masks, face shields and visors.

HOW TO USE:

Shake well. Spray from a distance of 15 to 20 cm (6 - 8 inches). If surface is dirty, use first spray for cleaning, then respray. Wipe with a lint free wiper, the polish and buff. Extra coats will give more protection. Use daily for best results.

MAIN USERS:

Offices, hospitals, schools, universities, government buildings, car dealers, airlines, military installations, emergency response teams, amusement arcades, etc.

ADVANTAGES:

- 1) Cleans without streaking, smudging or smearing.
- 2) Leaves an anti-static protective coating that prevents build-up of dust, dirt, fingerprints, or lint.
- 3) Leaves screen clear and easier to read to help reduce worker eyestrain and fatigue.
- 4) Can be used on glass or plastic surfaces.
- 5) Meets the following specifications: MIL C-25796 H, P-25690, P-83310, P-5425, Douglas Aircraft CAD-1, Boeing Letter - Lexan 9600.
- 6) Available in economical spray bottle or convenient aerosol.
- 7) Completely non-toxic and biodegradable.

PRECAUTIONS:

Do not use on optically coated glass filters or textured screens.
Read Material Safety Data Sheet.

SPECIFICATIONS:

Colour	White
Odour	Neutral
Flammability	Completely non-flammable
Biodegradable	Yes
