HS 7830

DIGEST Biological Trap and Drain Cleaner

DESCRIPTION:	DIGEST is a ready-to-use bacterial formulation specifically developed for application to institutional and commercial trap and drain systems.
PURPOSE:	To prevent clogging of drain pipes of institutional and commercial food preparation operations, floor drains, grease collectors and catch-basins. Cleans drains and frees them from organic matters such as grease, food particles, oils, detergents and paper.
HOW TO USE:	Kitchen, laundry and bathroom drains: 60 ml per 2.5 cm diameter of drain. Toilets: 60 ml per 2.5 cm diameter of drain. Grease traps: 500 mL. in drain closest to trap. Add DIGEST daily at the end of normal daily operations or during periods of lowest flow rates - usually at night N.B. In multi floor operations feeding into common drains, start treatment at lowest level first. This cleans the lower lines and prevent blockage from materials loosened from above. When the top floor is reached, continue treatment from the top floor only.
MAIN USERS:	Hospitals, nursing homes, restaurants, meat packers, poultry plants, dairies, canneries.
ADVANTAGES:	<ol style="list-style-type: none">1) Safe to use, no acids or caustics.2) Safe on all plastic, copper and iron pipes.3) Works quickly.4) Prevents build-up with regular maintenance.5) Reduced odour problems.6) Made from natural occurring bacteria.7) Bacterial count over <u>20 billion</u> per litre.8) Biodegradable.
PRECAUTIONS:	Avoid excessive inhalation of dried-up product. Wash hands with warm, soapy water after handling and before resuming normal activities. Read Material Safety Data Sheet.
SPECIFICATIONS:	Specific gravity 1.00 Odour pleasant odour Appearance Blue green hazy liquid pH Neutral
