## MULTI-ZYME Bio-active Formula

### DESCRIPTION:

White, semi-opaque foaming liquid with a pleasant fragrance.

### PURPOSE:

A highly active non-acid, non-alkaline bacterial treatment that works immediately to maintain grease traps, drains, sewage treatment plants, etc... Also used for immediate odour control. MULTI-ZYME's live bacteria work quickly to liquify and digest most organic waste. Made from natural sources.

### HOW TO USE:

GREASE TRAPS: Use 1/4 to 1/2 litre daily for the first week. Maintenance treatment 1/4 litre every 7 days. SEPTIC TANKS: Add 750 ml. per cubic metre capacity initially, thereafter use 375 ml. weekly. MULTI-ZYME is not for use in emergency situations. Do not use with very hot water, bleach, acids or disinfectants. For best results, use when flowrate is lowest.

### PRINCIPAL USERS:

Restaurants, pizzerias, apartment buildings, bakeries, hospitals, municipalities, food processing plants, farms, canning plants, etc..

### ADVANTAGES:

- 1) Safe to use, no acids or caustics.
- 2) Safe on all plastic, metals and ceramics.
- 3) Works quickly.
- 4) Prevents build-up with regular maintenance.
- 5) Reduced odour problems.
- 6) Made from natural occurring bacteria.
- 7) Bacterial count over 20 billion per litre.
- 8) Biodegradable.

### PRECAUTIONS:

Avoid excessive inhalation of dried-up product. Wash hands with warm, soapy water after handling and before resuming normal activities. Read Material Safety Data Sheet.

### SPECIFICATIONS:

Specific gravity ..... 1.00  
Odour ..... pleasant odour  
Appearance ..... Opaque white liquid  
pH ..... Neutral
