STAY-CLEAN Non-stick Pretreatment

DESCRIPTION:

STAY-CLEAN is a cream coloured emulsion of food grade ingredients.

PURPOSE:

STAY-CLEAN is a heat stable, non-toxic and odourless polymer which protects, reduces friction and forms a stick free surface wherever it is needed.

HOW TO USE:

Clean surface thoroughly with a suitable cleaner, rinse and allow to dry. Remove all grease, curing compounds, surface treatments, coatings, oils, etc. Using a suitable sprayer, apply STAY-CLEAN uniformly and lightly to the surface. Allow to dry. STAY-CLEAN will cover an area of approximately 2.5 to 10 m² per litre, depending on the porosity of the surface. Do not use near braking surfaces or anywhere slipperiness is undesirable.

MAIN USERS:

Wherever a non-stick surface is required, such as on lawnmowers to prevent grass from sticking, snow blowers, cement and roofing tar trucks, wheel barrows, trash cans, etc.

ADVANTAGES:

- 1) Can be used in temperature from -40°C to +150°C.
- 2) Not affected by water, oil or solvent.
- 3) Can be used on any surface; metals, rubber, plastics, fabric, painted surfaces.
- 4) Retards corrosion, rust and waterproofs.
- 5) Leaves surfaces non-sticking.
- 6) Made from biodegradable and food grade ingredients.

PRECAUTIONS:

Avoid contact with eyes, contains surfactants. In case of contact with eyes, flush for 15 minutes with water and get medical attention. Read Material Safety Data Sheet.

SPECIFICATIONS:

Appearance Cream coloured emulsion
Odour Peanut type odour
Flash Point None
