KITCHEN CABINET GREASE REMOVER

Cleaner and Tarnish Remover for Countertops, Wooden Cabinets and Decorative Metal

DESCRIPTION:

Kitchen Cabinet Grease Remover is an opaque, blue, thick liquid. It contains a mild abrasive and leaves a pleasant fragrance.

PURPOSE:

To remove grease and grime from wood, plastic and Formica and to remove tarnish from brass, bronze and copper easily and quickly without leaving a dull finish or imparting an offensive odor.

HOW TO USE:

KITCHENS AND BATHROOMS: Apply with a sponge, using light pressure, to clean fibreglass, plastic, porcelain, Formica, chrome, tiles, stainless steel, appliance enamel, etc.

TARNISH REMOVAL ON METAL: Apply some **Kitchen Cabinet Grease Remover** to a sponge and clean surface by rubbing the tarnished area until the tarnish is removed. Wipe clean with a moistened clean cloth or sponge.

BRASS SURFACES: After tarnish has been removed and wiped off, apply **STAINLESS STEEL POLISH** directly to surface and polish with a clean cloth. The surface may be cleaned whenever required with **STAINLESS STEEL POLISH** and the tarnish removed only when required, perhaps on a monthly basis.

MAIN USERS:

Retail product, sold through mail order and catalog companies.

ADVANTAGES:

- 1) Easy to use.
- 2) Does not dull surfaces.
- 3) Leaves a pleasant odor.
- 4) Easy to rinse or wipe.
- 5) Made from non-toxic material and a natural occurring mild abrasive.
- 5) Biodegradable and environmental friendly.

PRECAUTIONS:

Avoid contact with eyes, contains a mild abrasive. In case of contact with eyes, flush for 15 minutes with water and get medical attention. Can cause skin irritation, wear rubber gloves when handling material. Keep out of reach of children. Read Material Safety Data Sheet.

SPECIFICATIONS:

Color	Blue
Density	1.38
Odor	Mild fragrance
pH	7.8
Phosphate	No phosphate
Biodegradability	Complete
